SPECIFICATION

Product Name: L-Glutamine

Product Code: A-007

Product Description: L-Glutamine is the most abundant amino acid found in protein powders, beans, meats, fish, poultry, and dairy products.

Appearance :	White crystal powder
Assay:	98.5~101.1%
Loss on drying:	≤0.2%
Ash content:	≤0.1%
Heavy Metal:	≤10ppm
Specific rotation [20/D]:	6.3 °~7.3°

Product Application:

Glutamine is an important glycogenic amino acid, meaning that it is essential for helping to maintain normal and steady blood sugar levels. It also assists muscle strength and endurance, and is essential to gastrointestinal function, providing energy to the small intestines. The intestines are the only organ in the body that uses Glutamine as its primary source of energy.

Storage and Transportation: Keep in tightly closed container, stored in a cool, dry, ventilated place. The valid period is 2 years.

Package:

25kg/box
