SPECIFICATION

Product Name: Betaine Anhydrous 98%

Product Code: N-004

Product Description: Betaine Anhydrous 98% is a white crystalline powder, no stinking smell, sweet taste, deliquesces easily, water soluble and neutral pH in water solution.

Melting Point:	241-242 °C
Assay (Dry):	98% (Food grade)
Residue On Ignition:	≤0.1%
Heavy Metal:	≤10ppm
Pb:	≤2 ppm
Arenic:	≤2ppm
Loss on Drying:	≤0.2%

Product Application:

1. It can be used as feed additives to provide high efficient methyl and replace the methionine & choline chloride partially and lower the cost.
2. It can be added into the chicken's feed to improve its growth, or used as inducing ingredient of aquatic feed and help the ingestion of pig.
3. It can adjust the pressure of gas intestinal tract and improve the survival rate of young fish and shrimp.
4. Betaine anhydrous can protect the stability of VA & VB and improve the application efficiency. It has the best taste and has no irritation just like betaine HCl.
5. It has no acidity just like betaine HCL, thus it does not damage the nutrient contents of feeds.

Storage and Transportation: Keep in tightly closed container, stored in a cool, dry, ventilated place. The valid period is 2 years.

Package:

25kg/drum
